ADVICE AND SUPPORT YOU CAN TRUST

GTS Diamond Saws

The GTS Diamond Saw range is built with the GTS quality hydraulic drive system and is available to suit 1.5 to 40 tonne excavators, with cutting depths from 410mm to 950 mm. The most versatile in its class.

Designed and manufactured in Australia with you in mind, the GTS Diamond Saw offers more benefits and features than any other hydraulic saw:

- Lightweight, strong and robust design makes it easy to use
- Bi-directional blade rotation allows for cutting in both directions
- 180 degree rotating head bracket provides rotation without the need to disconnect, saving you time and money
- Instant brake system for added safety
- Offset extension to suit, ideal for boundary cutting
- No case drain line required, saving costs
- Built in water spray system keeps diamonds cool whilst minimising dust pollution
- Rotating shield helps to control water spray
- Heavy duty stand, useful for storing and transport

- Suit excavators from 1.5 to 40 tonne
- Cutting depths from 410mm to 950 mm
