

No compromise on power

Rammer has introduced the new Rammer E Compact Range of hydraulic rockbreakers, offering an outstanding power-to-weight ratio without compromising on performance.

Designed for efficiency, durability and versatility, the new compact yet powerful rockbreakers bring trusted Rammer reliability to a wide range of applications.

Walkers Hammers service technician in Victoria, Carlo Costanzo, said with their lightweight design and advanced features, the Rammer E Compact Range provides operators with greater flexibility while reducing carrier stress and maintenance requirements.

"These rockbreakers are engineered to enhance productivity while ensuring the durability Rammer is known for," he said.

Key features:

- **Lightweight design** – Easy to handle, reducing operator fatigue and allows for smaller carriers without compromising stability.
- **Minimised equipment stress** – Idle Blow Protection (IBP) safeguards equipment, extending its lifespan.
- **Plug and play operation** – Delivers constant impact power across a wide oil flow range.
- **Quick and safe tool change** – Enhances operational efficiency.
- **Versatile performance** – Compatible with a broad range of carriers, from 0.4 to 6 t, for multiple applications.
- **Smart construction** – Simplified design with fewer parts for faster maintenance and smoother operation.
- **Three-year factory warranty** – Backed by local Rammer dealer network's industry-leading support.

The Rammer E Compact Range is ideal for operators looking for a powerful yet compact solution that ensures efficiency, safety and durability in demanding work environments.

WITH AN EXCELLENT
POWER-TO-WEIGHT RATIO**

Suit carriers from 0.4 to 6 t

THE NEW COMPACT RANGE

Powerful yet lightweight, the new Rammer E Compact Range delivers exceptional performance with an outstanding power-to-weight ratio. Despite their compact size, these hydraulic rockbreakers provide the trusted Rammer reliability, ensuring efficiency across various applications. Featuring:

- **Lightweight Design** – easy to handle and allows the use of smaller carriers without compromising stability
- **Idle Blow Protection (IBP)** - safeguards equipment, extending its lifespan
- **Plug & Play** – constant impact power across a wide oil flow range
- **Quick & Safe Tool Change** – operational efficiency
- **Versatility** – compatible with a broad range of carriers for multiple applications
- **Fewer parts** - easier maintenance and smooth operation

Experience the power of Compact Excellence.
