Composting

## **ALLU DL Screening bucket**

**Excavators max. 12 t**  
**Wheeled loaders max. 8 t**

## ***ALLU DL Screening buckets, quality and style for compact base machines!***

ALLU DL Screening buckets are suitable for excavators max. 12 t, loaders max. 8 t, tractors and backhoe loaders.

The core of the new Screening bucket is the unique top screen where the screening blades spin between the top screen combs. The end product size is defined by the space between the combs.

**Advantages of top screen:**

- Clog free structure that ensures good capacity, even with wet materials
- Top screen combs carry most the material weight, this way the drums and bearings have less impact and load
- Changeable wearing parts (screening blades and top screen combs) lower the operating costs
- Simple structure → easy maintenance

The top screen structure works smoothly, even with wet materials. ALLU DL -screening buckets are therefore an excellent choice for screening topsoil, compost and peat and the perfect tool for landscaping.

**Stabilising, mixing, aerating and composting**

X50 drums with fixed blades

**Fine screening**

0-15 and 0-25 mm endproduct size  
top screen drums with changeable wear parts

DL 2-12	7-12	3-8	0,5/0,6	540	60 - 90	0,6	98	70	148	143x91x95	25
DL 2-17	9-12*	4-8	0,8/0,9	695	60 - 90	0,8	134	98	208	189x91x95	25

Note!

1. Base machine minimum weight is based on material density 900kg/m<sup>3</sup>
2. Check the tipping load from the base machines' technical info. This may increase minimum weight recommendation even by 1 - 3 tonnes
3. Specifications subject to modifications at manufacturers discretion. All weights/sizes are approximate
4. Volume increases approximately 30 % with extra sides

\* Factory confirmation required

**ALLU DOES IT ALL...**

## ALLU products for soil improvement

### ALLU Screener Crusher

Screening, crushing, mixing, aerating, and loading in one step operation

### ALLU Stabilisation System

Mixing soil and binding agent in mass stabilisation

### ALLU Compacting Plate

High power compacting plates for demanding job sites
